Satellite TV for PC Professional Edition Reviewed

This is the cheapest option of the "Satellite TV for PC" software series produced by SatelliteSoft. At \$39.95 (one-time payment), this software allows you to watch 2800+ tv channels on your pc or laptop. Although the price is nice and low, you'd still be better off spending your money on the [Direct PC TV](#) software, which costs the same price but comes with 6000+ more channels.

I give the [Satellite TV for PC Professional Edition](#) a ranking of 3. [Click here to see the #1 ranking software instead.](#)
